PROFESSIONAL EXPERIENCE

LGU of Itbayat, Batanes — Information Systems Analyst I

Jan 2026 – Apr 2026

- Developed and maintained a Progressive Web Application (PWA) for surveys, ID generation, and household data management using full-stack web development technologies.
- Implemented secure coding practices, input validation, and database security measures, ensuring compliance with the Data Privacy Act (DPA) and protection of sensitive citizen data.
- Supported system testing, debugging, and troubleshooting to improve application reliability, performance, and data integrity.
- Provided IT and technical support (hardware and software), including diagnosing and resolving workstation issues, software errors, and basic system configuration concerns for end-users.

Philippine Data Guardians — Part-Time Freelance Junior Web Developer

Apr 2026

- Developing an Automated Privacy Impact Assessment (PIA) system to support privacy risk identification, assessment, and compliance reporting.
- Assisting in the implementation of security-focused controls aligned with privacy and regulatory requirements.

Philippine Data Guardians — IT Intern

September 2025 – November 2025

- Developed a responsive landing page website with a membership registration system and an admin dashboard for managing community members, registrations, and user data.
- Created cybersecurity and data privacy educational materials, including infographics and videographics, to promote awareness of safe digital practices.
